

BIO-GEL Bio-restorative Hydrogel

Unique Hydrogel combines PSP® and Hydrating Hyaluronic Acid to help restore radiance to aged skin.

Formulated with PSP®, a complete protein blend of Human Growth Factors, Cytokines and Interleukins to help improve signs of aged skin and soothe skin.

ANTI-AGING

- ☑ Helps reduce the appearance of fine lines and wrinkles.
- ☑ Improves skin texture and tone to restore luminosity.
- ☑ Oil-free hydrogel texture is ideal for men.

POST-PROCEDURE

- ☑ Nurtures, nourishes and refreshes stressed looking skin after non-invasive cosmetic procedures such as fillers, micro-dermabrasion and light peels.

BIO-GEL is ideal for normal to oily skin types.

Use AM/PM or as directed by physician to nurture skin.

What makes BIO-GEL unique?

In addition to PSP®, BIO-GEL contains sodium hyaluronan; which is the sodium salt of hyaluronic acid. Sodium hyaluronan is a major, natural component of the extracellular matrix of skin. Sodium hyaluronan in combination with growth factors are described to play a key role in wound healing.

Use of BIO-GEL Bio-restorative Hydrogel

BIO-GEL is suitable for all skin types including oily and problematic skin and was
